

Garden Organic Membership and Volunteer Network

As part of this project, your community will have Garden Organic and Heritage Seed Library group membership. This will give you access to our horticultural advice service, our regular members' magazine, and a range of discounts and other benefits. As a Heritage Seed Library member, you will receive twelve packets of heritage, heirloom and rare seeds each year.

You will also be part of our network of volunteers across the UK, which includes Master Composters and Master Gardeners. You will receive news and opportunities, such as our programme of webinars for volunteers with expert speakers.

Garden Organic training offer

Garden Organic offers a range of training to communities taking part in the Greening Campaign. These can be in person or online.

Core training

- The principles of organic gardening;
- Engaging your community in growing food.

Optional training:

- Seed saving and conservation: webinars with Heritage Seed Library team, as well as in-person training with local Seed Guardians;
- Designing and developing a community garden or orchard;
- Improving and maintaining your soil, including composting.
